ABOUT ME

MERN Stack Developer | Final-Semester Undergraduate at NUML University with 2–3 years of professional experience. Currently working at LevelUp Marketplace, specializing in full-stack web development, REST APIs, and modern JavaScript frameworks.

EDUCATION

National University of Modern Languages (NUML) | 2023-2026

Bachelor of Science in Software Engineering

Final-semester undergraduate with strong focus on web development, MERN stack, software engineering principles, and practical project-based learning.

Punjab Group of Collage | 2019-2021

FSc (Pre-Engineering)

Completed intermediate education with a strong foundation in mathematics, physics, and analytical problem-solving, supporting further studies in software engineering.

WORK EXPERIENCE

Levelup Marketplace Softwate House. | 2024 - 2026

MERN Stack Developer

Worked on full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Developed RESTful APIs, built responsive user interfaces, integrated databases, and collaborated with team members to deliver scalable and efficient solutions.

WordPress

- Also have working knowledge of WordPress, including theme customization, plugin integration, and content management.
- Experienced in building and managing WordPress websites, customizing layouts, and optimizing performance.
